Studying Abroad: Overview

Considerations on Studying Abroad

- What to study – Reflect on your strengths and weaknesses. Passion? Purpose? Career prospects?
- Where to study – English-speaking (UK/US), Non-English speaking (France/Germany/Japan/China). City/Town?
- Finance – course fees, travel, and living costs. How to finance? Discuss with your parents.
- Course duration – Basic degree usually 3 years in UK vs 4 years in US.
- Course type – Early specialisation in UK vs Breadth of courses in US.

Are rankings important?

Are rankings important?

- Rankings are based on diverse measures, may not reflect quality of undergraduate experience or quality of teaching.
- Course rankings may differ from university rankings.
- Some universities specialise in fewer courses and may not feature in top rankings.
- US & UK universities dominate world rankings now. What about future? NUS? NTU?
- Is your university well known to your future employers?

Degree recognition?

Very important!!

For professional degrees, check for recognition by Professional Boards in Singapore, otherwise you may not be able to practise your profession in Singapore:

- Accounting & Corporate Regulatory Authority
- Ministry of Law
- Singapore Medical Council
- Singapore Dental Council
- Board of Architects
- Professional Engineers Board
